

01. Uloga adrenokortikalnog sistema u nastanku ketoze visoko-mlečnih krava

Role of adrenocortical system in occurrence of ketosis in high – yield dairy cows

Šamanc H, Stojić V, Vujanac I, Dimitrijević B, Huszenicza

02. Bruceloza pasa – epizootiološke karakteristike, dijagnostika, terapija i kontrola bolesti

Canine brucellosis – epizootiological characteristics, therapy and control of the disease

Radojičić S

03. Ispitivanje hemadsorpcionih svojstava glikoproteinskih HN i F antigena spoljašnjeg omotača virusa parainfluenze 3, *in vitro*

Investigations of hemadsorption characteristics of glycoprotein HN and F antigen of parainfluenza 3 virus outer membrane *in vitro*

Nišavić J, Milić N

04. Telesna masa, masa slezine i nivo tireoidnih hormona kod juvenilnih hipotireoidnih pacova

Body mass, spleen mass and level of thyroid hormones in juvenile hypothyroid rats

Roksandić D, Šimić M, Radovanović A, Gledić D

05. Evaluacija genotoksičnog potencijala amitraza citogenetičkim testom *in vivo*

Evaluation of genotoxic potential of amitraz by cytogenetic test *in vivo*

Pejin I, Stanimirović Z, Stevanović J, Kulišić Z

06. Primena imunohistohemijskih metoda u dijagnostici sarkocistioze goveda

Implementation of immunohistochemical methods in diagnostics of bovine sarcocystosis

Novaković Z, Katić-Radivojević S, Todorović V

07. Reproktivna aktivnost krava posle porođaja u odnosu na vrednosti nekih parametara metaboličkog profila

Reproductive activity in cows following parturition against values of certain parameters of metabolic profile

Otava G, Mircu C, Cernescu H

08. Uloga enzima proteinaze u procesu konverzije mišića u meso

The role of proteinase enzymes in the process of conversion of muscle to meat

Dumen E

09. Mogućnost primene dodicin-hidrohlorida u preveniranju mastitisa kod krava

Possibility of application of dodicin hydrochloride in prevention of mastitis in cows

Joksović S, Čupić V, Katić V

10. Značaj neospora caninum u govedarstvu

Significance of neospora caninum in cattle farming

Ilić T, Dimitrijević S

11. Korekcija everzije trećeg očnog kapka kod pasa

Eversion of third eyelid and its correction using microsurgery

Hadži Milić M

12. Nova saznanja u primeni vakcina sa kina (k) - sojem u kontroli i suzbijanju klasične kuge svinja

New knowledge in application of vaccines with kina (k) strain in control and curbing of classical swine fever

Prodanov J, Došen R, Polaček V, Lupulović D

13. Metode kontrole hrane za goveda radi preveniranja bovine spongiformne encefalopatije (BSE)

Control methods for cattle feedstuffs aimed at prevention of bovine spongiform encephalopathy (BSE)

Nešić K

14. Iznenadno uginuće mačke kao posledica infekcije uzrokovane sa *Dirofilaria immitis*

Sudden death in cats as a consequence of heartworm (*Dirofilaria immitis*)

Marinković D, Nešić V
